*Verizon is the selected internet provider. Pricing is compared to retail service costs, including equipment charges and installation fees. Residents will be billed separately for any optional upgrades. Exact internet speeds may vary due to factors, such as device limitations and whether you're using a wired or wireless connection. For best results, connect directly to the wall port with an ethernet cable and device capable of the speeds. The program and charge are optional for eligible residents. Contact a leasing associate for details and to confirm eligibility.
