Connect+ Smart Tech is optional for eligible residents. Connect+ Internet is included as a standard service and automatically billed monthly at a competitive rate. Exact internet speeds may vary due to factors, such as device limitations and whether you're using a wired or wireless connection. For best results, connect directly to the ethernet port with an ethernet cable and device capable of the speeds. We recognize that residents may have individual preferences or may choose to use alternative internet services. For questions, contact our leasing team.
